[Metastatic Bowel Cancer - Bowel Cancer Australia](#)
Metastatic Bowel Cancer If the cancer has spread to another part of the body it is called metastatic bowel cancer or secondary (advanced) cancer If the cancer in the bowel is not detected and removed at an early stage, part of the tumour can break off fro

[What is Metastatic Colon Cancer? \(with pictures\)](#)

In addition to the colon cancer symptoms, metastatic colon cancer in the liver also causes jaundice or yellowing of the skin and eyes. Edema or swelling of the feet as well as ascitis, which is the accumulation of fluid in the abdomen, are also often present.

[Metastatic Bowel Cancer Beat Bowel Cancer](#)

Metastatic bowel cancer is treated differently to early-stage bowel cancer. In cases of metastatic bowel cancer, cancerous cells are no longer isolated to the bowel or the area immediately surrounding the tumour.

[What is metastatic cancer? - Canadian Cancer Society](#)

For example, when colon cancer spreads to the liver, the cancer cells in the liver are colon cancer cells. It is metastatic colon cancer, not liver cancer. It is metastatic colon cancer, not liver cancer.

[metastatic colon cancer - CancerCenter.com](#)

Metastatic colorectal cancer symptoms may depend on the size of the tumor or tumors and where the cancer has spread outside the colon or rectum. For instance: For instance: If the bones are affected, symptoms may include pain, fractures, constipation and/or high calcium levels.

[Stage IV Colon Cancer Prognosis - WebMD](#)

Stage IV colon cancer has a relative 5-year survival rate of about 14%. This means that about 14% of people with stage IV colon cancer are likely to still be alive 5 years after they are diagnosed.

[Prognosis and survival for bladder cancer - Canadian ...](#)

Prognosis and survival for bladder cancer. People with bladder cancer may have questions about their prognosis and survival. Prognosis and survival depend on many factors. Only a doctor familiar with a person's medical history, type of cancer, stage, characteristics of the cancer, treatments chosen and response to treatment can put all of this information together with survival statistics to

[metastatic colon cancer - UpToDate](#)

When the recurrence develops at a site away from the colon or rectum, it is called a metastasis. In other cases, a colorectal cancer has already spread to distant sites by the time it is diagnosed. This is referred to as metastatic (stage IV) colorectal cancer.

What Is Recurrent Colorectal Cancer? - WebMD

"Signs and Symptoms of Colon Cancer," "Treatment of Colon Cancer, by Stage," UptoDate: "Patient education: Colorectal cancer treatment; metastatic cancer (Beyond the Basics)," "Treatment of

What is Metastasis? | Cancer.Net

Colon and rectal cancers tend to spread to the liver and lungs. Is a metastasis the same type of cancer as before? Doctors give a metastasis the same name as the original cancer. So a breast cancer that spreads to the liver, for example, is referred to as metastatic breast cancer, not liver cancer. This is because the cancer started in breast cancer cells. However, even though the tumors

Metastatic Cancer - National Cancer Institute

Metastatic cancer has the same name as the primary cancer. For example, breast cancer that spreads to the lung is called metastatic breast cancer, not lung cancer. It is treated as stage IV breast cancer, not as lung cancer.

Bladder Cancer: Treatments by Stage | Cancer.Net

There are no methods to permanently cure metastatic bladder cancer for most people. The goals of treatment are to slow the spread of cancer, shrink the tumor (called remission), and extend life for as long as possible. Palliative care is also important to help relieve symptoms and side effects.

Bladder Cancer Staging | Bladder Cancer Stages

The staging system most often used for bladder cancer is the American Joint Committee on Cancer (AJCC) TNM system, which is based on 3 key pieces of information: T describes how far the main (primary) tumor has grown through the bladder wall and whether it has grown into nearby tissues.
