iphone - OAuth secrets in mobile apps - Stack Overflow

OAuth secrets in mobile apps. Ask Question 126, 61.

When using the OAuth protocol, you need a secret string obtained from the service you want to delegate to. If you are doing this in a web app, you can simply store the secret in your data base or on the file system, but what is the best way to handle it in a mobile app (or a desktop app for that matter)? Storing the string in the app is
