[Xenotransplantation - Canada.ca](#)

Xenotransplantation is the transfer of living cells, tissues and/or organs from non-human animal species into humans (although technically, it could be the other way around or between any two species).

[Xenotransplantation - Wikipedia](#)

Xenotransplantation (xenos-from the Greek meaning "foreign" or strange), or heterologous transplant is the transplantation of living cells, tissues or organs from one species to another. Such cells, tissues or organs are called xenografts or xenotransplants.

[WHO | Xenotransplantation](#)

Xenotransplantation, animal to human, defined as living cells, tissues or organs of animal origin and human body fluids, cells, tissues or organs that have ex vivo with these living, xenogeneic materials, has the potential to constitute an alternative to material of human origin and bridge the shortfall in human material for transplantation.

[Xenotransplantation: Overview, Choosing the Donor Species ...](#)

Xenotransplantation involves the transplantation of nonhuman tissues or organs into human recipients. The concept was pioneered a century ago, when transplanting human organs was considered ethically controversial.
